

# PEOPLE WORKING TOGETHER

**Qualicum Beach Fire Hall**  
qualicumbeach.com

## The QB Fire Department's Mission

is to fight fires, prevent fires, protect persons and property and effect rescue within the Qualicum Beach Fire Protection District

## Firefighters Volunteer and Contribute

to combating, extinguishing and preventing fires. They save lives and property, work with hazardous materials and conduct technical rescue and auto extrication. They commit to the community through public education and events.

## The Fire Hall Design Committee

included several members of the community and was formed in 2013 to contribute to design ideas. Their work ensured appropriate needs were met with the best value for the community.

## New Safety Features

will improve the health and safety of the firefighters and allow for more training on site with the integration of the new hose tower and larger areas to train. Health and safety improvements include decontamination showers, an exhaust extraction system and separate turnout gear storage.

## Federal support

advanced goals of meeting high energy efficiency through grant funding totalling \$464,467 from the Federation of Canadian Municipalities' Green Municipal Fund, which recognizes champions of environmental sustainability.

## Our New Fire Hall is set to be completed in the Fall of 2015
