Notice to Residents: Interceptor Manhole Repair

Manhole Repairs along Qualicum Beach Sanitary Sewer Interceptor

Anticipated Duration: August 15 - August 31, 2017

Please be advised that manhole repair work will take place along the beach frontage between the Brant Viewing Area and Judges Row between August 15 and August 31, 2017. The four manholes to be repaired are shown on the map on the back of this notice.

A small excavator and rubber tired loader will be present on the beach intermittently during this time to facilitate the repair work, which will occur at low tide. The equipment will access the beach via the concrete boat ramp in Beach Front Park, between the concession building and public restrooms. The contractor will communicate any brief access interruptions to foreshore areas to the public via temporary signage and safety barriers.

Enquiries can be directed to RDN Wastewater Services at 250-390-6560 or email rcu@rdn.bc.ca.
